Primary Science Facts – (Worksheet 19)

Circle the letter of the answer that correctly indicates whether the science fact shown is true or false.

1. More germs are transferred by shaking hands than by kissing. True or False:
   a. True
   b. False

2. Most of the dust in our home is composed of dead skin. True or False:
   a. True
   b. False

3. Natural gas is actually odorless. True or False:
   a. True
   b. False

4. Ostriches have wings but cannot fly. True or False:
   a. True
   b. False

5. Our moon maintains a constant distance from the planet Earth. True or False:
   a. True
   b. False

6. Our planet Earth is not perfectly round. True or False:
   a. True
   b. False

7. Fish cannot fly even for short distances. True or False:
   a. True
   b. False

8. Fish don’t need to breathe in oxygen to live. True or False:
   a. True
   b. False

9. Fish need to breathe in oxygen to live. True or False:
   a. True
   b. False

10. Gold is used for jewelry because it does not corrode. True or False:
    a. True
    b. False
