Circle the letter of the phrase that correctly completes the science fact.

1. All rivers flow:
   a. from north to south
   b. from south to north
   c. in all different directions

2. Meteors are falling:
   a. stars
   b. rocks and space debris
   c. star dust

3. A meteor that reaches the ground is called a:
   a. rock or stone
   b. meteorite
   c. crater

4. Stars like the ones we see up in the sky:
   a. are colored white only
   b. are colored blue and white only
   c. come in various colors

5. Speed and velocity are:
   a. always the same
   b. sometimes the same
   c. different

6. Acceleration and speed are:
   a. the same
   b. sometimes the same
   c. different

7. Comets are composed of:
   a. ice only
   b. rock only
   c. both rock and ice

8. Meteor streaks in the sky are:
   a. colored white
   b. colored blue and white
   c. come in various colors

9. The moon is:
   a. very cold
   b. hot in the day and cold at night
   c. very hot

10. The sun is:
    a. a star
    b. the largest star
    c. a large hot planet
Key to Primary Science Facts – (Worksheet 8)

Circle the letter of the phrase that correctly completes the science fact.

1. All rivers flow:
   a. from north to south
   b. from south to north
   c. in all different directions

2. Meteors are falling:
   a. stars
   b. rocks and space debris
   c. star dust

3. A meteor that reaches the ground is called a:
   a. rock or stone
   b. meteorite
   c. crater

4. Stars like the ones we see up in the sky:
   a. are colored white only
   b. are colored blue and white only
   c. come in various colors

5. Speed and velocity are:
   a. different
   b. sometimes the same
   c. always the same

6. Acceleration and speed are:
   a. the same
   b. sometimes the same
   c. different

7. Comets are composed of:
   a. ice only
   b. both rock and ice
   c. rock only

8. Meteor streaks in the sky are:
   a. come in various colors
   b. colored blue and white
   c. colored white

9. The moon is:
   a. very cold
   b. hot in the day and cold at night
   c. very hot

10. The sun is:
    a. a star
    b. the largest star
    c. a large hot planet
