Preprimary Physics – (Worksheet 2)

Circle the correct answer that predicts how things will move in the following diagrams.

1. What position will this lever move to next?
   A. 
   B. 

2. What position will this lever move to next?
   A. 
   B. 

3. What position will the tug of war line move to next?
   A. 
   B. 

4. What position will this pendulum swing to next?
   A. 
   B. 
   C. 

5. What position will this rocket launch to next?
   A. 
   B. 
   C.
Circle the correct answer that predicts how things will move in the following diagrams.

1. What position will this lever move to next?
   - A.
   - B.

2. What position will this lever move to next?
   - A.
   - B.

3. What position will the tug of war line move to next?
   - A.
   - B.

4. What position will this pendulum swing to next?
   - A.
   - B.
   - C.

5. What position will this rocket launch to next?
   - A.
   - B.
   - C.
