Buoyancy is the ability to float on water. Circle A for “floats” (buoyant) or B for “sinks” (non-buoyant) beside these objects depending on whether they will float in water or not.

1. Leaf
   A. Floats in water
   B. Sinks in water

2. Balloon
   A. Floats in water
   B. Sinks in water

3. Brick
   A. Floats in water
   B. Sinks in water

4. Boat
   A. Floats in water
   B. Sinks in water

5. Hammer
   A. Floats in water
   B. Sinks in water
Key to Preprimary – Buoyancy – (Worksheet 1)

Buoyancy is the ability to float on water. Circle A for “floats” (buoyant) or B for “sinks” (non-buoyant) beside these objects depending on whether they will float in water or not.

1. Leaf
   - A. Floats in water
   - B. Sinks in water

2. Balloon
   - A. Floats in water
   - B. Sinks in water

3. Brick
   - A. Floats in water
   - B. Sinks in water

4. Boat
   - A. Floats in water
   - B. Sinks in water

5. Hammer
   - A. Floats in water
   - B. Sinks in water
